

HOW FINGERPRINTS ARE TAKEN

- ✓ Before placing finger on the scanner please ensure that fingers are **clean, not wet** and **not too dry**. If necessary, ask paper tissues for cleaning of fingers from customer service.
- ✓ Place your finger **in the middle** of occupation area of the scanner

- ✓ Keep finger on scanner **straight**

- ✓ **Press** finger on the scanner **with moderate pressure** and **hold**
- ✓ **Please remove** finger from the scanner **when service provider asks you to do so**

- ✓ To achieve fingerprint **with good quality**, the service provider may ask you to **repeat the process** with the same finger or change the finger
